50 years' experience in distance
and online education

Acknowledgement of Country

Deakin University acknowledges the Traditional Custodians of all the unceded lands, skies and waterways on which Deakin students, staff and communities come together. As we learn and teach through virtually and physically constructed places across time, we pay our deep respect to the Ancestors and Elders of Wadawurrung Country, Eastern Maar Country and Wurundjeri Country, where our physical campuses are located. We also acknowledge the many First Nations from where students join us and make vital contributions to our learning communities.

Artwork: *Learning Together, Growing Together* by Nathan Patterson.

Six campuses. Three countries.

Deakin truly is an international university

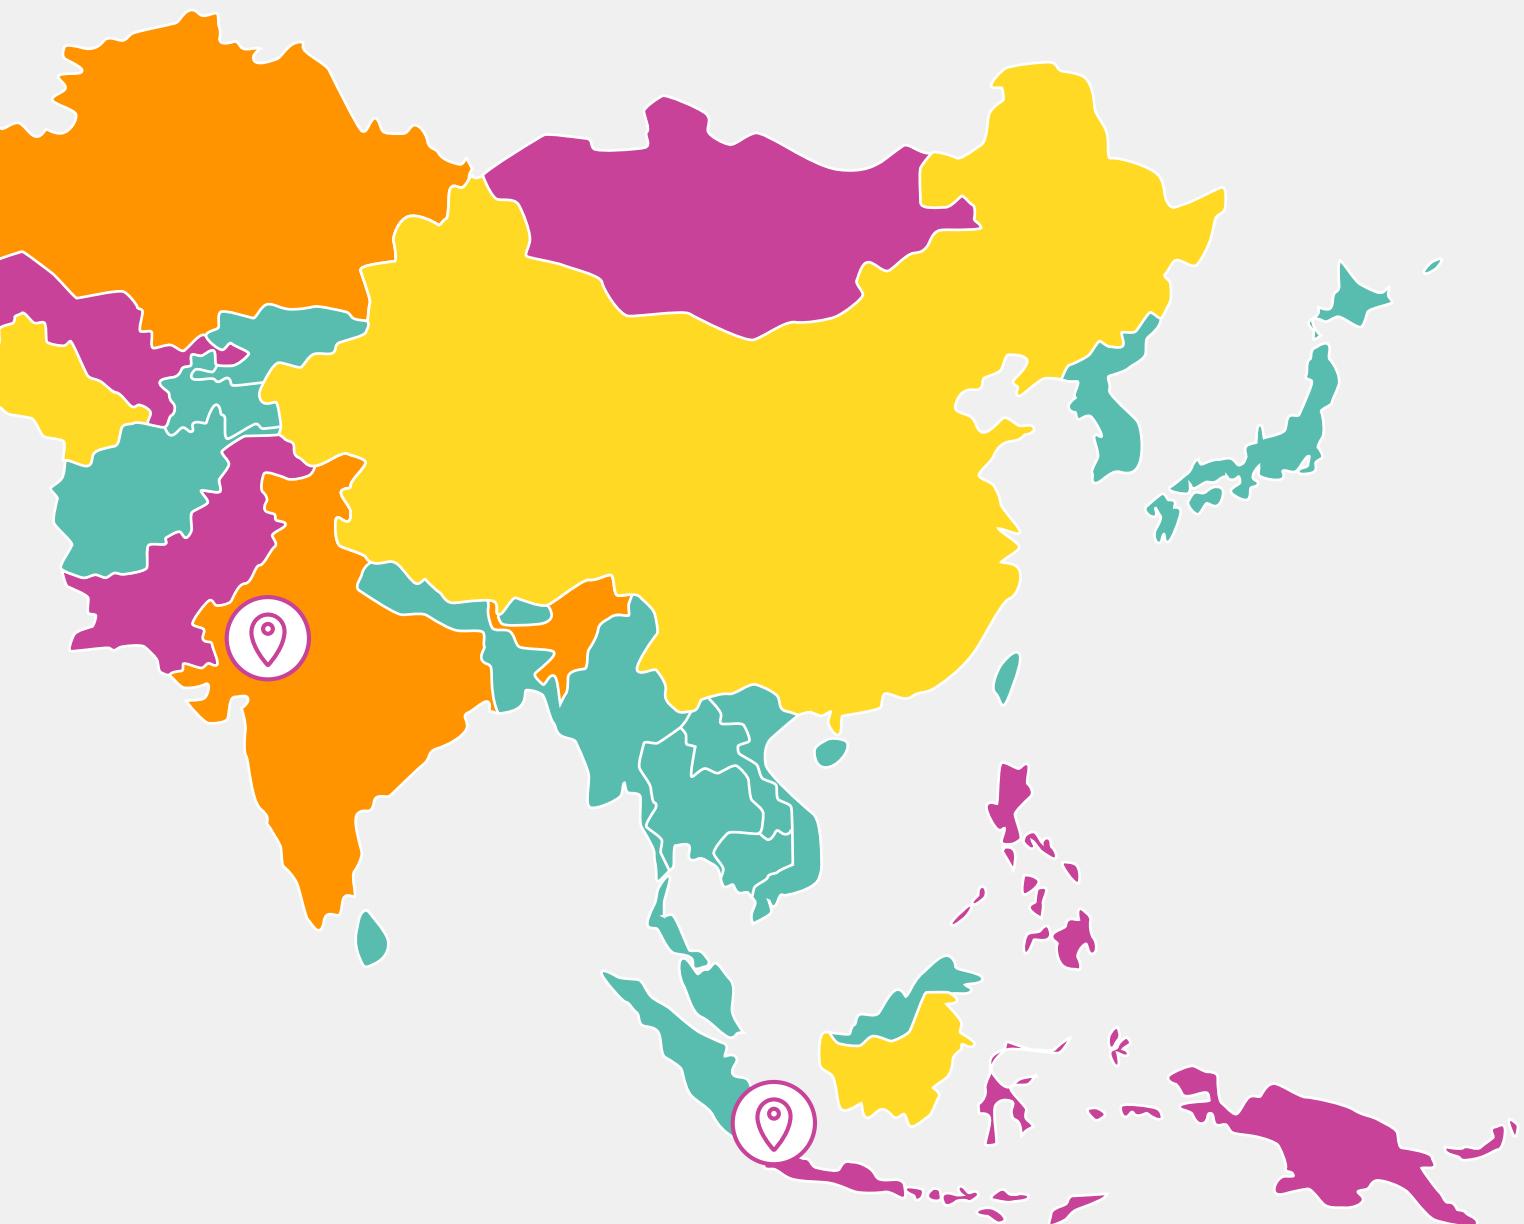

Based in the Australian state of Victoria, Deakin has been offering degrees from our four Australian campuses for 50 years. We have now expanded to India and Indonesia, bringing our high-quality Australian education to the world. As with our Australian campuses, Deakin's international campuses are communities where students can make connections that last a lifetime.

Deakin was the first international university to open a teaching campus in India. The GIFT City Campus offers postgraduate courses aligned with local employment needs.¹ As a global financial and information technology hub, GIFT City offers an opportunity for students to learn with industry partners. This practical, real-world experience, which Deakin is known for, prepares graduates for emerging and in-demand roles in India's growth sectors.

Our newest campus in Bandung, West Java, Indonesia is an innovative joint effort with Lancaster University (United Kingdom). The campus currently offers STEM programs in business and information technology in Bandung, to support future skills demand in Indonesia and around the globe. Students graduate with dual undergraduate qualifications from two world-class institutions while enjoying the many benefits of living and in one of Indonesia's leading student cities.

1 You must be an Indian citizen to study at GIFT City.

Deakin has campuses in Australia, India and West Java.

What postgraduate study can do for you

Become an expert in your field to drive your career forward

In a world that doesn't stand still, neither can you. Postgraduate study expands your employment opportunities and gives you the skills and expertise you need to progress your career. Employers value the professional skills and strategic thinking developed through studying at a postgraduate level.

► Gain industry experience while you study

Whether you are changing or progressing your career, Deakin's industry-immersed learning opportunities allow you to secure industry knowledge and expand your professional networks. The industry experience you gain during your course will help you make the shortlist for your ultimate job.

► Secure your position in industry with professional recognition

Many of our courses are industry-accredited. This means that the knowledge and skills you learn will align with the latest industry practices. Employers and professional associations will recognise these qualifications.

► Expand your professional network

An extensive professional network provides lifelong benefits and is essential for career advancement. Deakin facilitates networking opportunities, allowing you to connect with industry leaders, fellow students, employers, mentors and experts in your chosen field.

► Stand out from the crowd

A postgraduate qualification helps you differentiate yourself from your peers. It equips you with skills and experience that set you apart from the competition and demonstrate your commitment to ongoing learning.

► Increase your earning potential

As a postgraduate student, you can build on the expertise you developed in your undergraduate degree and increase your earning potential.

► A career switch

The workplace learning opportunities offered in many of our postgraduate courses can provide you with the knowledge you need to move into a new and exciting field of employment. Gain experience in a new sector or industry while you enhance your employability.

'My lecturers are super knowledgeable and passionate about their field. They're always willing to help and explain things clearly. I really appreciate the small class sizes too, it means I get more one-on-one attention. Plus, they've got real-world experience, so they bring practical insights into the classroom.'

Hung Viet Le, Vietnam
Master of Clinical Exercise Physiology

Get ahead with Deakin

► Industry recognised learning and placements

A hands-on, industry-led approach is at the heart of our course design. We work closely with industry and businesses so you get:

- industry-based learning opportunities
- fieldwork and professional experiences
- course content shaped by industry experts and matched to current industry practice
- a well-recognised qualification that stands out to employers.

Deakin's global industry partnerships give you practical skills that are sought after by employers.

► Learn from leaders in their field

Our outstanding academic staff and research supervisors are active participants and influencers in their fields. They ensure our courses stay relevant and reflect changing industry needs. This is why we are the #1 Victorian university for postgraduate teaching quality and educational experience.¹

► Fast-track your studies

You may be able to use your previous qualifications and experience to gain recognition of prior learning. This recognition allows you to shorten your postgraduate course and lower course costs, which could mean reducing your masters degree from two years full time to one year full time.

deakin.edu.au/recognition-of-prior-learning

► What other support services are there?

From study support and career planning to counselling and childcare, we offer a range of support services to ensure your success no matter your situation.

deakin.edu.au/international-students/why-study-in-australia/living-in-australia/support

► Values shaping our learning community

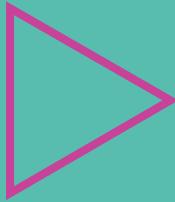

At Deakin, we are committed to creating an environment of inclusion where we value our diversity, embrace difference and nurture a connected, safe and respectful community. Our 2025 Diversity, Equity and Inclusion Strategy invites students, staff and local community partners to be a part of our ambitious agenda.

Making Australia home

There are a lot of reasons why Australia is one of the most popular destinations for international students. Australia is welcoming, diverse and beautiful. It is also home to some of the best universities in the world.

Find out more about living in Australia

Visit deakin.edu.au/international-students/why-study-in-australia/living-in-australia.

Melbourne is Australia's #1 student city¹

Melbourne is the world's 5th best student city¹

250,000+ international students call Victoria home²

Discover the Australian state of Victoria

Deakin's campuses are located in the state of Victoria. Victoria is an exciting and multicultural state on Australia's east coast.

Whether you study in Melbourne, Geelong or Warrnambool, the communities that surround Deakin are family-friendly and full of life.

Celebrated for the arts, sports, food and coffee, Victoria is also home to incredible beaches, nature and wildlife, and a welcoming and engaging culture.

¹ QS Best Student Cities Ranking 2025.

² Australian Government Department of Education, International student numbers by state, for 2024 in Victoria.

Your campus; our game-changing facilities

Join a global community of more than 300,000 alumni who have a shared ambition to nurture a better future. Where you choose to study will depend on your degree and preferences. Our on-campus degrees use the same online learning platform as our online degrees. That means seamless connection between our physical and digital classrooms.

► Melbourne Burwood Campus

A short tram or drive from Melbourne's bustling city centre, Deakin's Melbourne Burwood Campus is our liveliest; it is the home campus for approximately 27,000 students.

Our top-tier facilities:

- a professional motion-capture lab
- dance, drama, visual arts, photography and design studios
- Deakin Studios (Burwood) – our virtual production, television, film, and animation studio
- the Phoenix Art Gallery
- new, purpose-built engineering facilities featuring high-tech equipment
- industry-standard food preparation, food analysis and sensory labs
- a recently expanded nursing and midwifery clinical simulation centre
- IT gaming facilities
- a simulated foreign-currency trading floor
- a moot court
- a specialised state-of-the-art indoor exercise and sport science facility

► Geelong Waurn Ponds Campus

More than 7,300 students access world-class programs and superb facilities at our Waurn Ponds Campus, which is a short bus ride from the Geelong city centre. Deakin buses run regularly from the Geelong Waterfront Campus in the city centre to the Waurn Ponds Campus.

Our top-tier facilities:

- a state-of-the-art engineering precinct and modern science labs
- the Nyal immersive learning precinct, an interactive learning space with a 360-degree theatre, collaborative think tank and event space

Additionally, Deakin's Elite Regional Sports Precinct includes:

- an Australian Football League oval
- a FIFA-grade soccer pitch
- an eight-lane, 400-metre athletics track and 50-metre long-jump track and sandpit
- basketball and netball courts and baseball diamond.

► Geelong Waterfront Campus

Founded in 1994 and originally built as wool stores in the 19th century, our Geelong Waterfront Campus overlooks Corio Bay and offers world-class facilities to more than 4,200 students.

Our top-tier facilities:

- Architecture and Built Environment (A+B) studio and gallery
- nursing and midwifery clinical simulation centre
- Occupational Therapy Learning Hub featuring assistive SMART technology
- design, photography and visual arts studio spaces
- The Project Space art gallery
- wellbeing spaces for group fitness and pilates and yoga

This stunning campus is just 30 minutes from the iconic Great Ocean Road, complete with famous surf beaches and the occasional whale sighting.

► Warrnambool Campus

Three hours from Melbourne and two hours from Geelong by car, our friendly and tight-knit Warrnambool Campus is set on the banks of the Hopkins River.

Our top-tier facilities:

- newly-opened multi-million-dollar Health Precinct with nursing and midwifery, occupational therapy and medical simulation spaces
- the Aquaculture Futures Facility
- Deakin's research vessel 'Yolla'
- the Hydrotech Technology Hub, a 2200m² bespoke hydrogen research, testing and training facility

► Common facilities across campuses

- DeakinACTIVE gyms
- medical centres
- cafes and hospitality outlets
- libraries
- security offices
- all-gender accessible amenities
- Changing Places facilities
- public transport access (expanded bus network at Burwood)
- car parks

Online learning

For more than 50 years¹, Deakin has been perfecting distance and online learning. Today, we have a community of more than 60,000 students, and continue to be world leaders with our innovative online teaching and learning platform.

Study what, how and when you want with our dedicated online learning platform, designed to support your full-time, on-campus experience. Our easy-to-use learning tools, including DeakinSync and CloudDeakin, connect you to peers, teachers, and support resources such as live-streamed seminars, real-time class discussions, and offline course materials.

¹ Deakin was formally established on 10 December, 1974.

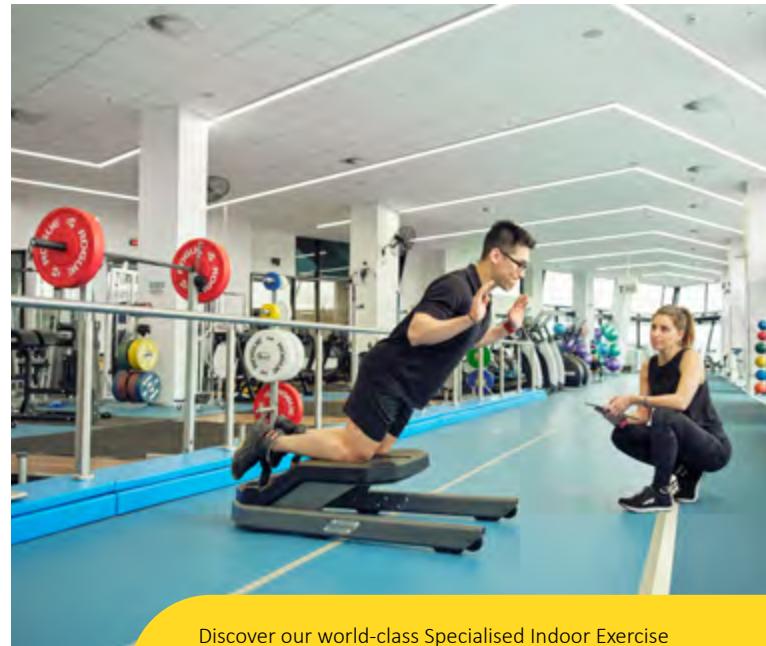

Access world-class facilities

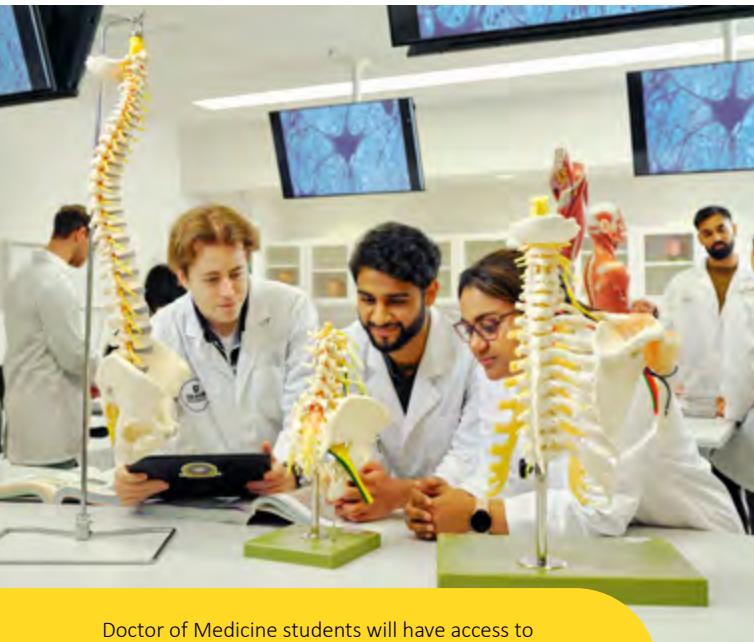

Experience leading-edge learning spaces at Victoria's #1 university for facilities and resources.¹

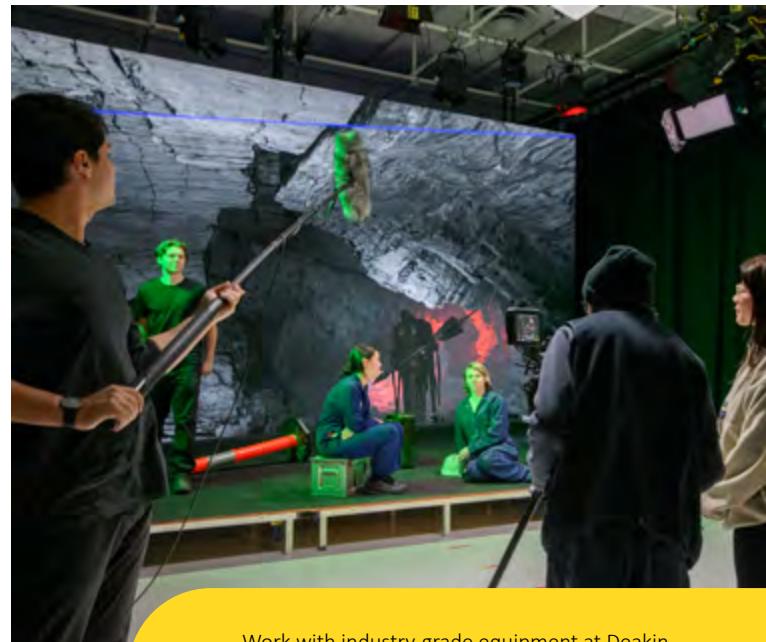

Deakin's engineering precinct at the Geelong Waurn Ponds Campus features over \$8 million worth of high-end teaching equipment and cutting-edge technologies.

Discover our world-class Specialised Indoor Exercise and Sport Science Building at the Melbourne Burwood Campus, complete with four levels of state-of-the-art facilities, including a climate chamber.

Doctor of Medicine students will have access to world-class clinical learning spaces at Geelong Waurn Ponds Campus, Warrnambool Campus or the East Grampians Health Service in Ararat.

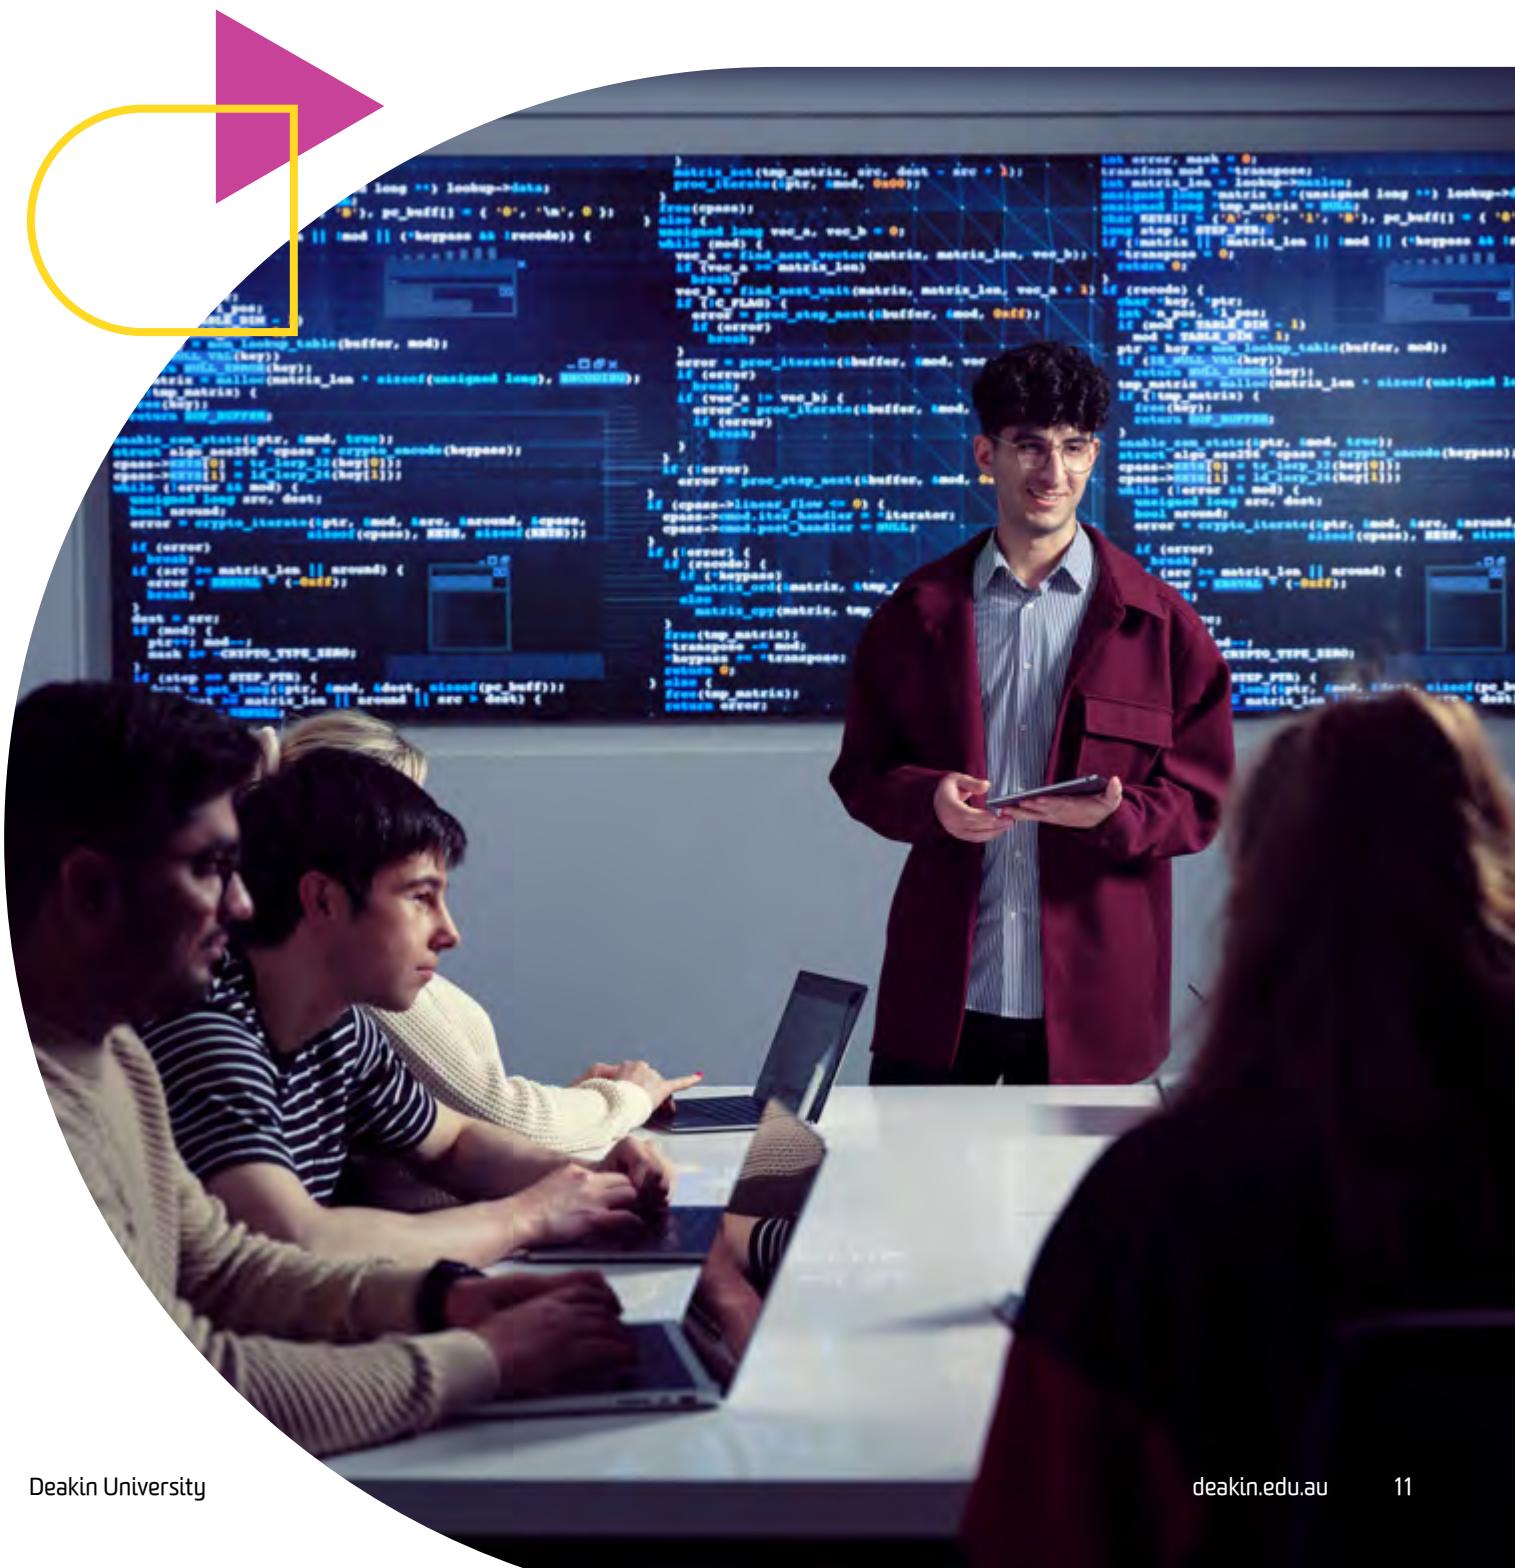

Work with industry-grade equipment at Deakin Studios (Burwood) – our virtual production, television, film and animation studio.

¹ 2023 Student Experience Survey, Quality Indicators for Learning and Teaching (QILT).

'Deakin's psychology course stood out due to its strong industry reputation and emphasis on practical, hands-on learning. The course provides numerous opportunities to gain real-world experience, such as internships and placements, which are invaluable for career readiness.'

Melbourne Burwood Campus

Our Melbourne Burwood Campus is the perfect mix of state-of-the-art student housing and traditional village living. It's just 30 minutes from the Melbourne central business district and there are various transport options on your doorstep. This campus is bordered by sprawling parkland and boasts studio apartments, shared living options and exclusive res spaces like a Zen Zone, Music Room and Sports Lounge.

Geelong Waurn Ponds Campus

Make Geelong Waurn Ponds Campus your future home and start your mornings with a walk, jog or ride through the picturesque campus. Choose from self-contained studio apartments, townhouses and shared units. Plus, get connected with students from across the globe at an array of events, including trivia nights and regional trips.

Geelong Waterfront Campus

The Geelong Waterfront Campus is located in the heart of Geelong's central business district. Deakin Residential Services' Brougham House offers the conveniences of city living, with state-of-the-art facilities and stunning views from the rooftop terrace overlooking the bay. You will also have access to study rooms, a theatre room and recreation spaces.

Warrnambool Campus

Live on the banks of the pristine Hopkins River and near surf beaches. Choose from shared living or studio apartments where you will immediately feel at home. Warrnambool offers a tight-knit, welcoming and inclusive community, with lots of opportunities to meet new people and learn new skills.

¹ Powered by the Asia-Pacific Student Accommodation Association (APSAA) in conjunction with Investor In Students (IIS), 2024.

'Living on Res has been one of the best decisions I have made all year. The real highlight is the exclusive Res events that require no additional payment from residents. I got to meet so many awesome people and experience things that I may not have had a chance to if I was not on Res.'

Derby, Brunei
Master of Cyber Security student

Off-campus accommodation

There are also plenty of options if you would like to live off campus.

Houseme is Deakin's database of local rooms, houses and apartments available to rent.

We are also here to help you apply for properties and understand your rights and responsibilities as a tenant in Australia.

To learn more about living off campus, visit accommodation.deakin.edu.au/off-campus.

Everyday expenses

Accommodation is not the only cost to consider.

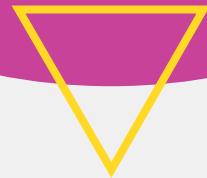

The cost of living in Australia will vary depending on where you live, your lifestyle and your day-to-day expenses. It is a good idea to think about your budget before you arrive.

Cost-of-living guide

Visit costofliving.studyaustralia.gov.au to find out more.

Connect with industry

► Real-world experience

At Deakin, we have a wide range of internship, work placement and work integrated learning programs to help you advance your career while you study.

You will gain the real-world expertise and practical skills that will give you a competitive edge in the workplace – all while you are studying. Discover opportunities for work integrated learning online.

deakin.edu.au/students/study-support/wil

► Industry placements to make you job-ready

Enhance your employability in Australia and around the world. Be ready for your career with industry-based learning opportunities, fieldwork and professional placements. Deakin has industry partnerships with organisations across Australia and overseas to give you the practical and applied skills that add depth to your resume and are sought after by employers.

► Learn from leaders in the field

Our outstanding academic staff are active participants and influencers in their fields. This ensures our courses remain relevant, reflecting changing industry needs, and that you receive the best of both theory and current workplace practices.

► Secure your position in industry with professional recognition

Many of our courses are industry-accredited, which means that the knowledge and skills you learn align with the latest industry practice. Employers and professional associations will recognise your qualifications and unique skill set.

Open a world of opportunity

Through dedicated research and industry partnerships, work alongside world-class academics while building practical skills to transform tomorrow.

► Expand your professional network

An extensive professional network provides lifelong benefits and is essential for career development and advancement. Through networking opportunities that Deakin facilitates, you will meet fellow students from different backgrounds, industry leaders, employers, mentors and experts in your chosen field.

► Increase your earning potential

As a postgraduate student, you can build on the expertise you developed in your undergraduate degree and increase your earning potential. On average, those with a postgraduate qualification earn more per year than their undergraduate counterparts.

► Support and opportunities

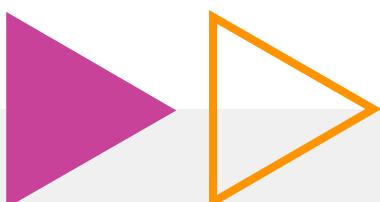

Our award-winning careers service, DeakinTALENT, can also help you access employment support and opportunities.

The Deakin International Student Careers program (DISC) can help prepare you for the Australian job market, increase your employability and help you reach your professional goals.

DeakinTALENT also offers a range of other services, including workshops, coaching and the FreelancingHUB internship program.

DeakinTALENT won the Excellence in International Student Employability and Career Development category of the 2020 Victorian International Education Awards (VIEA), and has been voted the most popular careers service in Australia by the graduate recruitment industry for several years.¹

¹ Australian Graduate Recruitment Industry Awards, 2017, 2018, 2019, 2020 winner for most popular career service in Australia; Employability award, 2021 Australian Financial Review Higher Education Awards.

Work and your visa

If you are on a student visa, you can work while you study. See the Australian Government's Department of Home Affairs website for visa conditions.

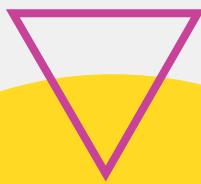

Find out more

Visit immi.homeaffairs.gov.au/visas/getting-a-visa/visa-listing to discover more about working while you study.

Supporting you from course to career

Award-winning university career service in Australia¹

¹ Quality Indicators for Learning and Teaching 2023, #1 Victorian University for Graduate Employment. Australian Graduate Recruitment Industry Awards, 2017, 2018, 2019, 2020 – Most Popular Career Service in Australia winner. National Association of Graduate Careers Advisory Services 2022 and 2024 – Excellence Award in Innovation finalist.

DeakinTALENT is dedicated to guiding students and graduates through every step of their unique career journey.

From enrolment to graduation and beyond, we deliver personalised support and resources to help you achieve your career goals. We offer assistance through career coaching sessions, industry panels, online tools and resources, and exclusive job boards. We encourage you to explore your career possibilities with DeakinTALENT.

Providing support with:

- exploring your career options
- building your skills and experience
- developing your resume and cover letter
- creating your LinkedIn profile
- finding a job
- preparing for interviews
- and so much more!

► DeakinTALENT International Student Careers Program

DeakinTALENT International Student Careers (DISC) is a program tailor-made for international students to support your unique career journey. Helping you explore diverse employment options, developing your networking skills, and building your confidence in achieving your career goals. With DISC, you will get a clear understanding of the Australian job market and workplace culture, preparing you for your future career journey both in Australia and around the world.

Premium online learning

Digital is in our DNA; we have more than 50 years' experience in distance and online learning

Choose one of our industry-shaped online courses to future-proof your career. Work alongside our dynamic community of 60,000+ students online.

deakin.edu.au/international-students/choosing-your-degree/postgrad-degrees/pg-online

How it works

We use advanced technology to bring the classroom to you.

Our premium online learning platform allows you to participate in live-streamed seminars, lectures and class discussions, as well as submit assignments online.

Whether you are a busy professional or you want to structure your study around other commitments, our premium interactive platform will help you make the most of your study time. More than 78,000 online students (and counting!) have graduated from Deakin.

Learn via our premium online platform with Australia's highest-rated tech support¹

DeakinSync makes your transition to online study a smooth one. It serves as your online campus, where you will find everything you need.

All Deakin students connect and collaborate through DeakinSync, so you will always have access to the Deakin community, no matter where you are in the world.

When you are on DeakinSync you can:

- access your learning materials, reading lists and study guides
- participate in online lectures, seminars and live chats
- manage your enrolment and fees, and access your student email
- access expert library research support
- access digital library resources 24/7
- access all sorts of study and personal support resources
- connect with career support
- access IT assistance with Australia's top-rated tech support¹ (even outside regular hours).

Unit sites are the centre of your learning experience at Deakin. On most unit sites, you will:

- participate in live-streaming lectures, tutorials, seminars, discussion forums and chats
- watch a welcome video from your unit chair and access staff contact details
- submit your assignments and check your grades
- find online activities that you may need to complete, e.g. quizzes
- take advantage of content that is accessible via desktop, tablet or mobile.

For most online courses, you can even sit your end-of-unit assessments online.

'It's an extremely supportive and engaging learning environment at Deakin. You feel like you are not just a student, but more like you are doing an internship and you are learning from your colleagues.'

Pamela Barhoun
PhD in neuroscience

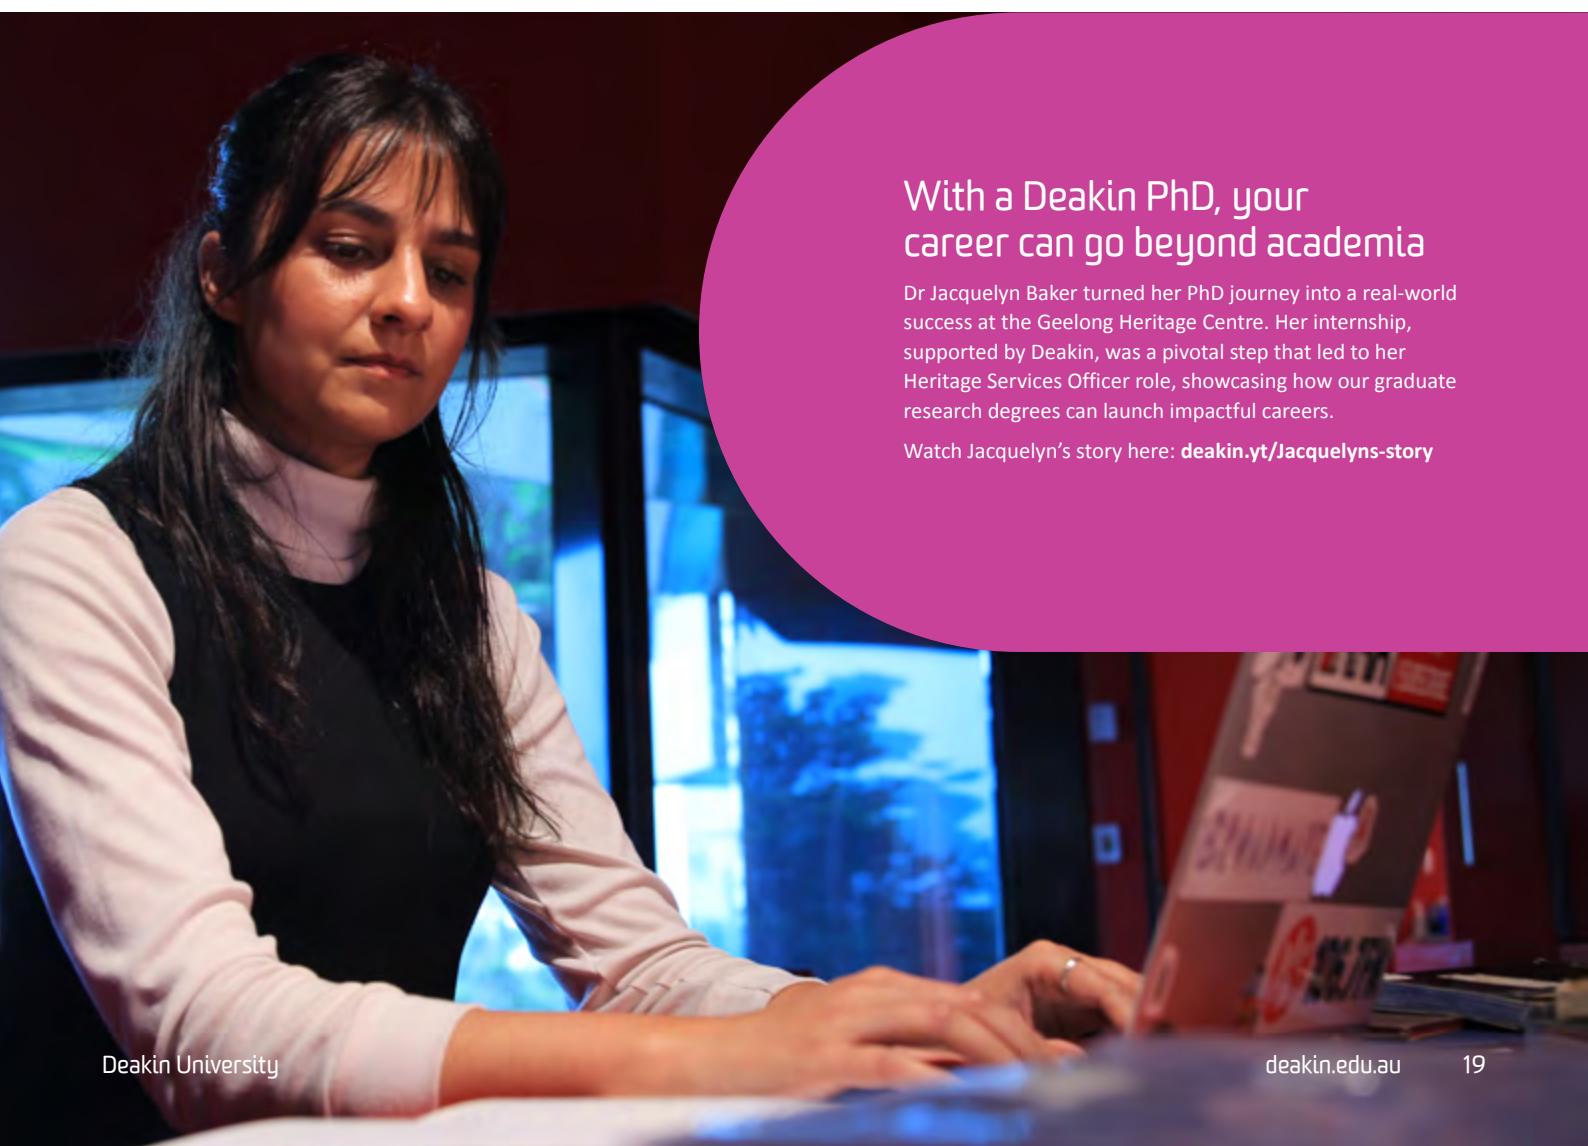

'My primary supervisor, Professor Kathryn Backholer, was a massive support throughout my entire PhD. Even though we're based on different campuses, she was never more than a phone call away and she even supported me with seeking other opportunities, including working with the United Nations.'

Oliver Huse
PhD in preventative health and nutrition

'Deakin understands students' needs and situations. From providing support in terms of conference or field work travel, to immediate IT assistance, Deakin ensures we are taken care of.'

Amrita Kamath
PhD in science education

With a Deakin PhD, your career can go beyond academia

Dr Jacquelyn Baker turned her PhD journey into a real-world success at the Geelong Heritage Centre. Her internship, supported by Deakin, was a pivotal step that led to her Heritage Services Officer role, showcasing how our graduate research degrees can launch impactful careers.

Watch Jacquelyn's story here: deakin.yt/Jacquelyns-story

Transforming ideas into impactful solutions

At Deakin, our research is geared towards making a real difference. Our focus on five key research strengths allows us to turn innovative ideas into tangible solutions that benefit society and drive progress.

1 Enabling a sustainable world

Sustainability is central to our research efforts. We are committed to advancing solutions in renewable energy, resource management and environmental protection to create a lasting positive impact on the planet.

2 Advancing society and culture

Our research is dedicated to making a real difference by integrating First Nations knowledge with contemporary strategies to build inclusive and resilient communities. Our work spans education, the arts and business, with the aim of fostering a brighter future where everyone can thrive and contribute to a more equitable society.

3 Designing smarter technologies

Our research is dedicated to creating human-centered technologies that address pressing challenges. We collaborate with industry partners to develop practical, ethical innovations that enhance lives, from health and education to manufacturing.

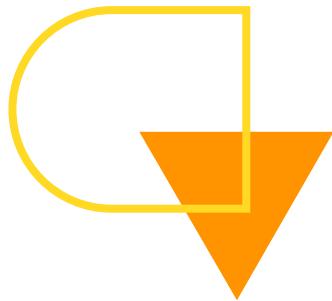

4 Improving health and wellbeing

We address major health challenges through innovative research that strengthens healthcare systems, explores new technology and promotes health equity, improving outcomes for individuals and communities alike.

5 Building safe and secure communities

From cybercrime to community resilience, our research addresses global security threats through ethical and innovative solutions. By forming strong partnerships with government and industry, we develop proactive strategies and technologies that enhance safety and foster secure environments for all.

To find out more about our research areas visit deakin.edu.au/research/research-strengths.

The support you need to succeed

Deakin is proud to offer international students a range of scholarship opportunities.

These scholarships are merit-based. They are offered in recognition of your high academic achievements or your potential to make a positive contribution to Deakin University and the wider Deakin community. There are scholarships for specific study areas and citizens of specific countries.

Scholarships are limited in number. Many are offered on a first come, first served basis. You can use our Find a Scholarship tool online to explore which of our scholarships you might be eligible for.

► Australia Awards Scholarships

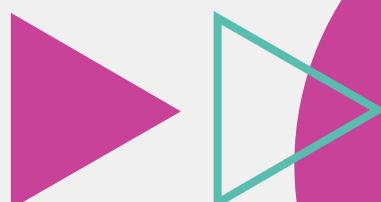

Australia Awards Scholarships are available to students in selected countries for full-time study in Australia.

It covers:

- a return airfare to Australia
- academic and other compulsory fees
- basic health insurance
- establishment allowance
- a living allowance.

This is not a Deakin scholarship.

Find out more at dfat.gov.au/people-to-people/australia-awards.

Data science and analytics

Become an in-demand specialist in this rapidly growing field. Learn directly from experienced professionals to gain a competitive edge in business.

FEATURED COURSE

Master of Data Science (Professional) S770

The volume and complexity of data available to businesses today creates challenges that tomorrow's graduates need to be ready to solve. Modern organisations increasingly rely on data to guide everyday operations and long-term decision-making. You will learn where data comes from and how to manage, organise and use it effectively – while considering important constraints around ethics, privacy and security.

Graduates of this course may find a career as a:

- data analyst/scientist
- analytics programmer/manager/consultant
- business analyst
- management advisor/analyst
- business advisor and strategist
- marketing manager/specialist
- market research analyst.

Education and teaching

Be a flexible and agile educator. Deakin is ranked as Australia's #2 university and #11 worldwide for education and educational research.⁹ Understand learners, grow your professional network, engage, share, collaborate and acquire the leadership skills to be a professional educator.

FEATURED COURSE

Master of Education (Leadership and Learning) E725

The Master of Education (Leadership and Learning) is a postgraduate degree for qualified educators looking to develop or enhance leadership capabilities. Leaders in education are challenged to inspire new ways of thinking and learning in our communities. In this course, your interest and passion for educational leadership will be explored through practical learning experiences. You will be supported by teaching staff with extensive research and education expertise.

Career opportunities include:

- school principal
- school assistant principal
- lead school teacher
- year group coordinator
- higher education manager
- early childhood director
- school or faculty/department manager.

Engineering

Design and innovation are at the heart of engineering at Deakin. Our future-focused courses go beyond the classroom, giving you the skills and experience you need to create innovative solutions to real-world problems. Whether you are building robots in our state-of-the-art lab spaces or solving complex problems on an industry placement, our courses will help you develop the practical skills necessary to advance in your dream career.

FEATURED COURSE

Master of Engineering (Professional) S751

Study the Master of Engineering (Professional) and develop the research, technical and problem-solving skills to design and implement engineering projects as part of a professional team. Throughout this degree, you will acquire the forward-thinking and entrepreneurial skills employers are looking for.

With an international skills shortage in the engineering industry, and roles expected to rise significantly by 2030, Deakin graduates are in demand. Graduates of this course may find career opportunities associated with their study area in a wide range of industries.

Environment and sustainability

Do you want to build a rewarding career effecting positive change? Develop specialist knowledge in environmental management, healthy and resilient communities, and climate change adaptation and mitigation. Gain the skills needed to address national and global sustainability issues and implement strategies that balance environmental, social and economic considerations.

FEATURED COURSE

Master of Sustainability (Professional) S728

Deakin's accredited Master of Sustainability (Professional) gives you the skills needed to develop and implement practical solutions to complex sustainability challenges. The flexible structure of the course allows you to build the degree for the career you want. You will first acquire a solid foundation in sustainability before tailoring your studies through a specialisation in either environmental management, health and environment, or sustainable regional development.

Depending on your area of expertise, management or consultant opportunities exist in areas including environmental protection, cultural and natural heritage management, environmental conservation, land and water management, natural resource management, agriculture, communications and planning.

Food, nutrition and dietetics

Be inspired by Australia's #1-ranked nutrition science research¹⁵ and shape the future of the food industry by exploring the relationship between food, nutrition, human health and disease prevention. Graduate with the skills, confidence and industry recognition needed to make a positive impact on the health and wellbeing of others.

FEATURED COURSE

Master of Nutrition and Population Health H748

Deakin's Master of Nutrition and Population Health is an advanced human nutrition course covering public health, food science, biochemistry, physiology, epidemiology, psychology, sociology and policy. You will develop deep knowledge, practical skills, and an understanding of biological, social and policy aspects to excel as a nutritionist in diverse settings. Choose an elective that aligns with your interests, including the Postgraduate Nutrition Practicum, a work-integrated option providing 100+ hours of real-world experience to help you build professional skills and graduate career ready.

As a graduate of this course, you can pursue nutrition roles in:

- community sector agencies
- government departments
- non-government organisations
- the food industry

Health and community services

It is projected that by 2034¹⁸, there will be over half a million new jobs in the Australian healthcare and social assistance sector. Deakin's postgraduate health and community service degrees will prepare you to address domestic and global health challenges. You will graduate with the skills needed to directly improve the lives of individuals, address inequalities, manage a clinic or hospital, lead projects promoting mental health, or even shape policy at a government level.

FEATURED COURSE

Master of Health Economics H704

Turn data into evidence-based decisions that improve healthcare systems with advanced skills in resource allocation and economic modelling with Deakin's Master of Health Economics. Join one of Australia's largest health economics programs, designed for clinical and non-clinical professionals, as well as finance experts looking to create healthier communities. Learn from leading academics in a research-driven program that shapes policy and health practices globally while advancing your career.

Use your specialised skills and extensive practical experience to explore roles in:

- pharmaceutical and health technology industries
- health insurance
- hospitals, community health organisations and healthcare management
- international health organisations such as WHO, UNDP, OECD, the World Bank Group and the Asian Development Bank
- government departments
- non-government organisations
- corporate consulting firms.

Information technology and cyber security

Whether you want to investigate cyber-attacks or identify hidden patterns in big data, our IT courses offer an immersive learning experience. A postgraduate IT degree advances your employment opportunities in almost any industry. You will develop transferable skills in critical thinking, analysis, investigation, problem solving and evidence-based decision making.

FEATURED COURSE

Master of Information Technology Management (Professional) S739

The digital world is always changing, with new technologies transforming how industries work. To make the most of these opportunities, businesses need skilled leaders who can effectively manage IT projects, services and teams. Deakin's Master of Information Technology Management (Professional) equips you with the knowledge and skills to succeed in this important role.

Graduates will possess the specialised knowledge needed to excel as a:

- IT project manager
- digital transformation manager
- innovation IT service manager
- incident management lead
- technical consultant
- cyber security project manager
- delivery lead.

Medicine

Clinically contextualised learning is a key theme of medicine at Deakin. This means that while you are at university, you will solve the kinds of problems that you will encounter in professional practice. Our courses also include placements in a range of medical environments, from hospitals and general practices to community healthcare settings.

FEATURED COURSE

Doctor of Medicine H911

Apply to the Doctor of Medicine and set yourself up for a range of rewarding careers, from general practice and pathology to paediatrics and surgery. The course has a unique focus on rural and regional medicine, Indigenous health and patient-centred communication skills. Our students develop the foundational skills essential for any career in medicine and are given the opportunity to experience healthcare in multiple specialist areas. Our Doctor of Medicine aims to satisfy the critical shortage of doctors in regional areas, making our graduates highly employable.

In order to qualify as Registered Medical Practitioners with the Medical Board of Australia, our graduates are currently undertaking accredited internships at a number of prominent Victorian and interstate hospitals. After successfully completing an intern year, graduates can apply for entry to specialty training programs that lead to a broad range of medical careers.

Nursing

Advance your career at Deakin, ranked 15th in the world for nursing.²⁶ Key nurses, midwives, clinicians and researchers inform our postgraduate nursing and midwifery courses to ensure student learning experiences are modern and evidence-based.

FEATURED COURSE

Master of Advanced Nursing (H777)

Deakin's Master of Advanced Nursing equips you with expert clinical decision-making skills to practice safely and effectively at an advanced level. You will gain specialised knowledge, evidence-based practice, and person-centred care. As an experienced registered nurse, you will refine your professional judgement, lead evidence-based practice, and drive positive change in nursing care and patient outcomes within modern healthcare settings.

Depending on the units you have completed, your expertise will allow you to pursue a range of roles, including:

- clinical nurse educator
- associate or unit manager
- research roles.

Psychology

Build on your existing knowledge and skills to provide meaningful help and support to people experiencing life challenges. Our strong ties with industry ensure our psychology and counselling courses are relevant to workforce needs and the meet accreditation requirements.

FEATURED COURSE

Graduate Diploma of Psychological Science (H603)

Follow your passion and explore a rewarding career change. If you are looking to move into psychology, but the idea of committing to a three-year undergraduate degree seems a bit daunting, the Graduate Diploma of Psychological Science is your perfect option. Designed for students who have completed an undergraduate degree in a discipline other than psychology, the course introduces you to the fundamentals of psychology and human behaviour while fast-tracking your journey to provisional registration.

Career opportunities, after further study include:

- clinical psychology
- clinical neuropsychology
- community psychology
- counselling psychology
- forensic psychology
- organisational psychology
- sport and exercise psychology.

Pathways to registration as a psychologist

To obtain registration as a provisional psychologist, you will need to complete four years of psychology studies recognised by the Psychology Board of Australia. After completing a Deakin undergraduate psychology degree or external bachelor degree (with an Australian Psychology Accreditation Council (APAC) accredited three-year major sequence in psychology)¹, there are a number of further study options you can take to be eligible for general registration.

The following diagram provides an overview of potential pathway options.

1. COMPLETE ONE OF THE FOLLOWING BACHELOR DEGREES OR EQUIVALENT:

- Bachelor of Psychological Science
- Bachelor of Arts (Psychology)¹
- Bachelor of Health Sciences¹
- Bachelor of Marketing (Psychology)
- Graduate Diploma of Psychological Science
- Bachelor of Human Resource Management (Psychology)
- Bachelor of Criminology/Bachelor of Psychological Science
- Bachelor of Nursing/Bachelor of Psychological Science

2. COMPLETE:

A fourth year of study in psychology (either Graduate Diploma of Psychology (Advanced) or Bachelor of Psychological Science (Honours)).

3. APPLY FOR:

Provisional registration with the Psychology Board of Australia (once conditions are met).

5. APPLY FOR:

General registration with the Psychology Board of Australia.

4. COMPLETE:

A masters in psychology that includes work placement. Deakin master and doctorate programs:

- Master of Professional Psychology²
- Master of Psychology (Clinical)
- Master of Psychology (Organisational)

Find out more

Visit deakin.edu.au/international-students/choosing-your-degree/psychology for more details on our psychology courses.

¹ Bachelor degree (with an APAC accredited three-year major sequence in psychology) with a minimum of a mid-credit (65%) in a level-three psychology research methods unit and a minimum average of 65% over all level-2 and level-3 Psychology core units.

² Following the completion of this course you are required to undertake a one-year internship (an intensive supervised training program).

Sport

Join the #1 sport science school in the world²⁸. Deakin's diverse postgraduate sport courses range from management to clinical exercise, so you will be able to take your career to new heights, on or off the field.

FEATURED COURSE

Master of Clinical Exercise Physiology H743

Deakin's accredited Master of Clinical Exercise Physiology is acclaimed for teaching excellence, world-class facilities and graduate employability. You will undertake 360-plus hours of clinical placement where you will work with a wide range of clients, practitioners and institutions. Everything you learn is grounded in science, and the evidence-based techniques. When you graduate, you will be able to apply to become an Accredited Exercise Physiologist with Exercise and Sports Science Australia (ESSA), and confidently treat a diverse range of chronic conditions, injuries and disabilities.

As an Accredited Exercise Physiologist you may find work in variety of settings including:

- hospital and clinic rehabilitation
- occupational, community and sports rehabilitation
- private practice
- case management through compensable schemes.

Visit our course webpages for full details, including unit selection options, campus and trimester availability and more. deakin.edu.au/international-students/choosing-your-degree

Entry requirements

Each Deakin postgraduate degree has its own eligibility and academic entry requirements.

► Masters by coursework

Deakin masters by coursework programs are typically 18 months to two years full time, or up to four years part time. Many degrees allow you to choose a 'specialisation' – the area of study from which you choose the majority of your units. Studies are completed mainly through coursework, with a thesis or major project completed in the last part of the degree.

Admission requirements

Applicants are required to have completed at least a bachelor degree, or comparable, of an acceptable standard from an approved university or other educational institution. Some degrees may have additional entry requirements, which you can find on the Deakin website.

Masters degrees by coursework that include a research stream may provide a possible pathway to PhD candidature.

► Graduate certificates and graduate diplomas

Graduate certificates are usually one trimester in duration and are designed to add practical and vocational skills to your undergraduate degree, diploma or previous work experience. Graduate diplomas are usually two trimesters in duration. They are designed to build on the understanding and skills developed during a graduate certificate, or from work experience.

Admission requirements

Applicants seeking entry into a graduate certificate or graduate diploma program must have successfully completed:

- an approved undergraduate degree, or comparable, from an approved university or other educational institution; or
- comparable qualifications gained by examination or relevant professional or industry experience.

Additional requirements may exist for certain degrees.

Visas

International students who want to study in Australia require a visa. This could be a student visa.¹ It is important that you know the type of visa you are granted so that you can meet the requirements of that visa.

You can learn more about student visas and other important visa information at the Australian Government's Department of Home Affairs website.

¹ Students studying an online-only course are not eligible for a student visa.

Find out more

Visit deakin.edu.au/international-students/entry-requirements/visas to learn more about student visas.

English language requirements

To enrol in a Deakin degree, you will need to be able to read, speak, write and listen in English at a certain level. Students must provide evidence of at least one of the following:

- Obtaining the required scores on a recognised English language test, such as IELTS or TOEFL.
- Completed university (tertiary) or high school (secondary) studies taught in English.
- Lived and worked in an English-speaking country for at least five years.

Find out more

Visit deakin.edu.au/international-students/entry-requirements/english for more details about English language requirements.

English language tests accepted by Deakin

International English Language Testing System (IELTS)

IELTS is the most popular English language test in the world and is available in nearly every country.

Visit ielts.org to find out more about IELTS.

Test of English as a foreign language (TOEFL)

TOEFL features both online and paper-based components. The majority of TOEFL test takers worldwide sit the TOEFL iBT test.

Visit ets.org/toefl to find out more about TOEFL.

Other accepted English language tests

- C1 Advanced (formerly Cambridge English Advanced CAE)
- C2 Proficiency (formerly Cambridge English: Proficiency CPE)
- English language test for healthcare professionals (OET)
- Pearson Test of English Academic (PTE Academic).

English language in this guide

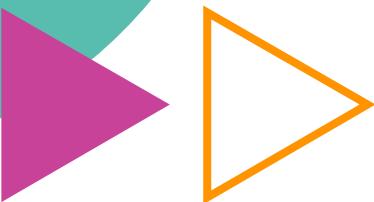

This guide uses IELTS exam scores as the standard for English language requirements. If you have taken a test other than IELTS, you can find equivalent requirements in the table below.

ENGLISH LANGUAGE TESTING

	IELTS 6.0 (Overall) CEFR INDEPENDENT USER B2	IELTS 6.5 (Overall) CEFR PROFICIENT USER C1	IELTS 7.0 (Overall) CEFR PROFICIENT USER C1

STAT Written English	Overall 140	Overall 145	Overall 150

Find your path

Don't worry if you do not meet some of the academic or English language requirements for entry into a Deakin degree straight away. We can still help you find a pathway to study with us.

Meeting the English language requirements at Deakin

The Deakin University English Language Institute (DUELI) offers a wide variety of programs that will help develop your English reading, writing, listening and speaking skills. DUELI pathways offer the opportunity to develop your English while improving your study skills. Located on the Melbourne Burwood Campus, students have access to first-class facilities and student support.

Successful completion of DUELI's English for Academic Purposes (EAP) pathway programs provide you with direct English entry into Deakin University undergraduate and postgraduate programs and Deakin College Foundation and Diploma courses.

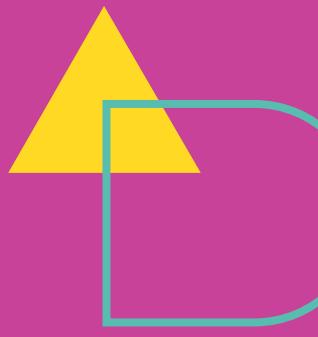

DUELI programs include:

- English for Academic Purposes (EAP)
- General English
- English for Teaching
- IELTS Preparation
- Introductory Academic Program (IAP).

DUELI programs start every five weeks and are offered online and at the Melbourne Burwood Campus.

Postgraduate skills support

DUELI offers programs to help postgraduate applicants transition into study at Deakin University. Completion of the 4th level of DUELI's English for Academic Purposes program meets the language requirements for postgraduate study at Deakin.

Find out more

Visit deakin.edu.au/international-students/entry-requirements/english/dueli to learn more about DUELI.

How to apply

Apply in five steps

STEP 1

FIND YOUR DEGREE

Choose the Deakin degree you would like to study. You can speak directly with us or with a Deakin authorised agent at any stage of the application process. Both are very knowledgeable and always happy to help.

STEP 2

UNDERSTAND THE ACADEMIC ENTRY REQUIREMENTS

Read all the academic entry requirements for your degree before you submit your application. Entry requirements may differ for some study areas or be dependent on your country of residence. Minimum requirements for our postgraduate degrees can be found on page 36 of this guide. Any special requirements will be listed on the specific course page of the Deakin website.

If you do not meet the academic entry requirements

There is a range of pathway options that may allow you to study at Deakin. Learn more about the pathway options on page 38 of this guide.

Find out more deakin.edu.au/int-entry

You can apply to Deakin at any time throughout the year

Our team is always ready to answer any questions and process your application quickly.

Application processes and requirements may differ slightly depending on your chosen degree, as well as your country of residence and entry pathway. Be prepared and give yourself time to gather the required paperwork.

STEP 3

UNDERSTAND THE ENGLISH LANGUAGE REQUIREMENTS

All applicants need to meet Deakin's English language requirements to the level necessary for their chosen degree. IELTS scores are included on the course information pages of this guide. To learn more about IELTS and other English language tests, see page 37.

If you do not meet the English language requirements, there is a range of pathway options that may allow you to study at Deakin. Learn more about the pathway options on page 38 of this guide.

Find out more deakin.edu.au/english-reqs.

STEP 4

GATHER SUPPORTING DOCUMENTS

When you submit your application to Deakin, make sure you attach all required supporting documentation. Otherwise, your application could be delayed or, even worse, rejected. Give yourself plenty of time to get organised. All documents must be translated into English. Most documents, such as transcripts and identification, need to be certified before they are submitted to Deakin.

Find out more: deakin.edu.au/international-students/how-to-apply

STEP 5

SUBMIT YOUR APPLICATION

You can submit your application to study at Deakin by:

- speaking with a friendly Deakin authorised agent, who understands what is required for a good application, as well as navigating the complexities that can come with visa applications, or;
- applying directly to Deakin through Deakin's StudyLink Connect platform.¹

¹ Please note that some students, depending on their country of citizenship, are required to submit an application through a Deakin authorised agent. Visit our website to view the list of countries this applies to.

Applying for credit

If you have completed relevant previous study, you may be eligible to apply for credit towards your Deakin degree.

Find out more: deakin.edu.au/rpl

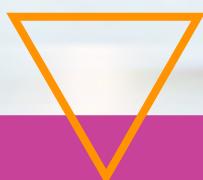

Research degrees

You can apply for a research degree or PhD at Deakin anytime, but be sure to check the key intake and scholarship deadlines first. Browse key dates and requirements online. deakin.edu.au/research/why-choose-deakin-for-your-research-degree/how-to-apply-for-a-research-degree

'Deakin's unique course structure and exceptional faculty have made my learning experience truly rewarding. Many were practising architects with extensive field experience, while others held PhDs, offering a rich blend of academic and practical knowledge.'

Yamin, India
Master of Architecture
